

Fiona™ Oxygen Analyser

Elegantly accurate oxygen analysis

Elegantly Accurate Oxygen Analysis

- Fiona™ is accurate to 1%
- Available with the latest R17 oxygen sensor for greatest accuracy and up to a 3-year life

Elegantly Easy to Use

- Fiona™ is ergonomically designed for easy handling
- One button calibration in room air or 100% oxygen
- Big, easy to see backlit display
- Helpful on screen instructions
- Sturdy and tough to withstand knocks and bumps

Elegantly Safe

- Fiona™ has a unique Auto-alarm Mode to alert caregiver if FiO₂ drifts more than 2% away from set level
- Fiona™ has adjustable high/low alarm limits

Elegantly Reliable

- Fiona™ operates on mains power with a 16-hour battery backup
- The internal battery is fully rechargeable

Elegantly Versatile

- Fiona™ can be used in conjunction with a range of medical equipment:
 - Oxygen hoods, Ventilators, CPAP, Nebulisers
- A simple multi-purpose mount and stand is available for securing Fiona™ to medical rail, shelving and IV poles
