

Breastmilk

Storage Bottles

Sterifeed has more than 30 years experience in the supply of Breastmilk Storage bottles for Neonatal Units, Special Care Baby Units and Paediatric Departments at Children's Hospitals. Sterifeed is a research and development based company using innovative technologies and the latest materials for its products. All Sterifeed bottles feature a smooth inside neck. This increases the positive seal required between cap and bottle, particularly during pasteurisation, as it is vital that the bottle and cap are airtight to avoid milk contamination.

Sterile Disposable Storage Bottles

Product Codes

12100 - 50ml - in tamper evident bags

12001 - 130ml - 12101 in tamper evident bags

12002 - 250ml - 12102 in tamper evident bags

Made from high clarity, high impact material. These are strong rigid bottles with accurate graduations suitable for pasteurisation & freezing. Designed for single use it is the most economic high clarity bottle available in the Sterifeed Range.

Sterile Reusable Storage Bottle

Product Codes

10089 - 130ml - 10189 in tamper evident bags

10090 - 250ml - 10190 in tamper evident bags

High quality polycarbonate can match the clarity of glass. The rigidity of the bottle eliminates the possibility of accidental force feeding that would occur with more flexible plastic bottles. Suitable for pasteurisation & freezing. The Polycarbonate bottle can be re-used by using a bottle washer on a disinfectant cycle. Heat resistant up to 120°C.

Breastmilk

Polypropylene Storage Bottles

Due to continued reports and rumours regarding polycarbonate bottles and Bisphenol A, Sterifeed has decided to launch a new range of Polypropylene, Bisphenol A free bottles, to give customers who have concerns, a choice without compromising on clarity. Also available from the NHS Supply Chain.

Made from clarified polypropylene. These are strong rigid bottles with accurate graduations, made from a shatter proof material. Suitable for pasteurising & freezing. The polypropylene bottle can be reused by using a bottle washer on a disinfectant cycle.

PP Sterile Disposable Storage Bottles
